Is Phil working today? He had said he wanted these, but I did not get his usual acknowledgement. He may just be in meetings but knowing there was a deadline . . . - kathy

Subject: some Q&A for Ken Wagner's meeting with FL DEP

Phil,

Attached for your consideration, modification, tossing in the trash pail (☺) are a few general Q&As for R4 to consider passing on to Ken's office.

I tried to keep it general but gave one example where statutory changes may not be needed. There are others, but ESA is a big one for them so I used that. Yes, some of their other concerns would need statutory changes (e.g., permit duration, the states are limited to 5 years, the USACE is not).

More importantly, I included a talking point about the FACA on assumable waters and where they can find the report online. I also noted that FL did not nominate anyone to be on the subcommittee. Important for Ken to know.

Have a great weekend, let me know if you need more. - Kathy
